

Shoulda used F.A.P.

Heat is important – don't use generic! Always use Factory Authorized Parts.

The day Michael installs a generic part will be a cold day in Hades. That's because he knows F.A.P. are always the right choice when working with Carrier®, Bryant®, or Payne® equipment. F.A.P. maintain the original efficiency of the system and are UL-certified. They're exact drop-in replacements so they save you installation time. Plus, Totaline has made key heating F.A.P. more affordable. They're one heck of a deal.
