

Totaline® Wireless Programmable Thermostat

The Totaline® P360-1320 Programmable Thermostat is wireless and utilizes RedLINK technology, so the thermostat can be installed anywhere. Because the wiring is done at an Equipment Interface Module by the equipment, adding multi-stage systems or cooling is a breeze. The P360-1320 thermostat provides electronic control of 24Vac conventional and heat pump systems.

Features:

- 5-1-1 Day Programmable Thermostat
- Easy to read backlit digital display
- Easy-Access Battery Replacement - Flip-out door allows for easy battery replacement without removing or disassembling the thermostat.
- Large, Clear Backlit Digital Display - Easy to ready in various lighting conditions.
- Precise Comfort Control - Maintains consistent comfort to the highest level of accuracy.
- RedLINK Wireless Enabled - Re-locate a thermostat, upgrade equipment, add temperature zoning quickly and easily without running wires.
- Can display outdoor temperature and humidity
- 2 month low battery warning, 1 year battery life
- 5-Year Limited Warranty
