

HEATING COMPONENTS

BURNER IGNITION SYSTEMS

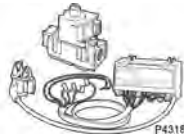

Universal retrofit intermittent Pilot gas burner ignition system

- Combines the most universal ignition controls (S8610 IP module & VR8304M gas valve) into the most capable retrofit kit available.
- Single-rod or dual-rod ignition and sensing simplifies installation with only one lead to wire.
- Sophisticated lockout timing eliminates nuisance lockouts.
- Honeywell part no.: Y8610U3003.

PART NO

P660-Y8610U

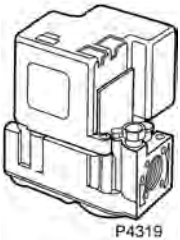

Retrofit intermittent pilot gas burner ignition system

- V8610f kits are for use with natural gas only: continue trial for ignition until the pilot lights or the system is shut down manually.
- Complete kit for converting standing pilot to intermittent pilot.
- Not 100% shutoff on pilot flame loss; ideal for most natural gas systems.
- Honeywell part no Y8610F5003.

PART NO

P660-Y8610F

SMARTVALVE SYSTEM

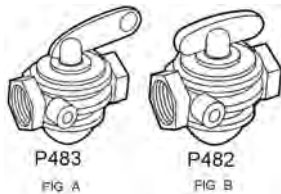

- Combines gas flow and electronic intermittent pilot sequencing functions into a single unit.
- Suitable for a wide range of gas-fired appliances including residential furnaces, rooftop furnaces, residential boilers, unit heaters, infrared heaters, and space heaters.
- Honeywell part no.: SV9501M2528.

PART NO

P682-SV9501M

SINGLE FUNCTION GAS CONTROLS

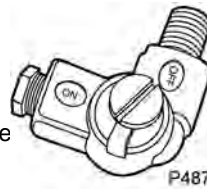

MANUAL GAS SHUTOFF VALVE

- Aluminum body
- 1/8 NPT pilot connection

PART NO	SIZE (in)	OVERALL LENGTH (in)	HEIGHT (in)	PILOT CONN	FIG
EV44CK047	1/2 x 1/2	2.8	3.0	Both Plugged	A
EV44CK052	3/4 x 3/4	3.1	3.6	One Plugged	B

PILOT SHUTOFF VALVE

PART NO

EV43CR956

TYPE

BODY

Aluminum

GAS VALVE ACCESSORIES

GAS PRESSURE REGULATOR

- Regulator is 5 PSI to 4" WC.

PART NO

EF680009

VENDOR P/N

Maxitrol 1/2 RV52

PIPE SIZE (IN)

1/2

INPUT CAPACITY NATURAL GAS (BTUH)

262,000

EF680010

Maxitrol 3/4 RV53

3/4

687,750

NOTE: Pressure set at 3" WC.; however, serviceman should always check calibration at time of installation.

GAS VALVE CONVERTERS/KITS

Regulator and gasket set used to convert Robertshaw vh700 & 700 model gas valves from regulated natural gas to regulated L.P. gas Mfg. P/N: 82446

PART NO

302989-102

Converts Johnson control gas valves from natural gas to regulated L.P. gas
