TOTALINE® SIGNATURE HUMIDIFIER

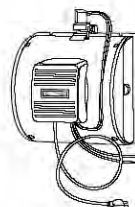

FAN-POWERED HUMIDIFIERS

FAN-POWERED HUMIDIFIERS

Model P110-LFP1418 is our most powerful! This is ideal for use in large homes or those with heat pump systems. It is rated to deliver 18 gallons of moisture per day. Easy to install because no bypass connection is needed. Compact model P110-SFP1016A is ideal for use in smaller, tighter constructed, or well insulated homes. It is rated to deliver up to 16 gallons of moisture per day. Also easy to install because no bypass duct is needed.

BYPASS HUMIDIFIERS

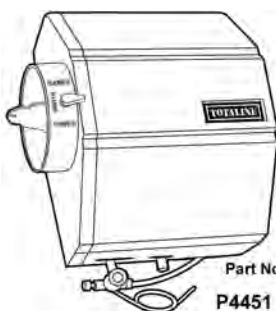

The bypass humidifiers are designed to operate based on pressure differential of the supply and return ductwork. Deluxe model P110-LBP2417 is easy to install and is simple to maintain due to front or bottom access panels, yet no motor is needed. This provides up to 17 gallons of moisture per day for your home. Compact model P110-SBP2312 is so small it fits where others cannot. It also outperforms some competitor's bigger units and offers improved comfort and savings. It is easy to maintain through a snap-button access panel. This provides up to 12 gallons of moisture per day for your home. Both bypass models have a built-in damper. This means one less component for you to stock. It also reduces installation time and cost as the dealer does not have to install it in the bypass ductwork.

FEATURES:

- All come with an adjustable humidistat
 - P110-0002, P110-SFP1016A
 - 4363 w/P110-SBP2312, P110-LFP1418, P110-LBP2417.
- Five-year limited warranty.
